WINTER NOTICE

IT IS COLD! Plug in the car overnight to avoid freezing temperatures below -20°C or it will not start. Vehicles must idle to warm up for 5 - 18 Minutes when the temperature is below -10°C

Failure to do so may result in mechanical damage, breakdowns and unsafe operation, which will be the renter's responsibility

During Extreme Cold -30°C or below, we recommend the Interior Fan is kept at low speeds (< 1/2), this helps the engine build up heat and will produce warmer air to the vehicle interior.
